BANKING HOURS CHANGED

We desire to announce to our Customers and the public in general that on and after June 1st. We will close at three P. M., except Saturdays; Saturdays at 4 P. M. (until repeal of daylight law we will remain open until 5 P. M. Saturdays.)

For the information of the public we wish to state that all other banks close their doors each day at from 2 P. M. to 3 P. M. This is not a custom, as is generally supposed, in order that the "Banker" may lock his vault and go home for the balance of the day, but that he may balance his Cash and proceed with his days work. The business of Banking is so intricate that it is necessary to have complete balancing of each and every department before the "Posting" of any of the many books can proceed. This can not be done while the public is being served and new items being cashed and received for deposit, thus the custom of bank closing a certain hour each day.

never rigidly maintained strict adherence to this rule, but have balanced their books as best they could, while serving the public at almost any hour. Owing to the fact, and too, our work is so very much heavier than ever before, we will have to, as above stated ask our friends and patrons to transact their business before the hours stated.

This does not mean that if the occasion should arise whereby you may need banking accommodation after "hours" that it will not be possible for you to phone us and get waited on, but it does mean that whatever service we may give you after closing will be PURELY PERSONAL accommodation, and we desire you to know that each and every time will mean an interruption to our work, no matter how cheerfully we may serve you.

We earnestly hope that each and every patron and friend of our banks will endeavor to assist us in this, and we assure you that your efforts in our behalf will be greatly appreciated.
